Until Procession Starts

Procession Route Map

[Render embedded map or static route image here]

Important Instructions

- Keep children with guardians.
- Use designated parking areas.
- Follow safety instructions near water.

Page 7: Admin Dashboard Overview

Manage Days

List view of Days 1-9. Tapping a day opens a form to edit Title, Schedule items, and current Day Status (Live/Upcoming/Done).

Announcements

Form UI: Title input, Textarea for message, Priority Radio buttons (Normal/Emergency), and "Publish + Push Notification" submit button.

Gallery Upload

Form UI: File selector (multiple), Dropdown to assign to a specific Day, Caption input, and Upload button connecting to Firebase Storage.

Admin Dashboard Features Checklist

-  **Authentication Route:** The `/admin` path must be protected by Firebase Auth. Only registered committee phone numbers or emails can access this.
-  **Day State Toggler:** Admin needs a simple switch mechanism to change which day is currently flagged as "TODAY" on the public home screen.
-  **Volunteer Manager (Phase 2):** A UI table listing volunteer names, assigned tasks (e.g., Decoration, Parking), and a status toggle (Active/Completed).
-  **Finance Tracker (Optional):** Input fields for 'Donations Collected' and categorized 'Expenses' to auto-calculate the remaining budget.

Architecture Setup Checklist

Layer	Technology / Setup Action Required	Status
Frontend Shell	HTML/CSS/JS written in Spck Editor on Android. Generate `manifest.json` for PWA.	☐ Pending
Hosting	Git push to GitHub → Enable GitHub Pages deployment from `main` branch.	☐ Pending
Database (NoSQL)	Firebase Firestore: Create collections for `schedule`, `announcements`, `gallery`.	☐ Pending
Media Storage	Firebase Storage: Setup public read rules, admin-only write rules for photos.	☐ Pending
Distribution	Generate QR Code linking to GitHub Pages URL for physical village banners.	☐ Pending

Blueprint Complete

Ready to open Spck Editor and start coding?

Use these slides as your UI layout checklist.
